Objective

Motivated and adaptable Computer Science student with strong skills in Java, Python, front-end, and databases. Seeking an entry-level software developer role to design and build scalable applications, contribute to real-world projects, and grow with a dynamic team.

Education

Aditya Engineering College, Information Technology Oct 2021 – May 2025

- GPA: 8

Royal Junior College, M.P.C Sept 2019 – April 2021

- Marks: 914

Technical Summary

Languages	Java,Python.
Web Development	Html,Css,Javascript,React JS,Pega.
Database	Mongodb ,Mysql.
Tools	Eclips, VS Code, Git hub.
Soft Skills	Adaptability,Problem solving,Collaborate working,Attention to Detail.

Experience

Java Internship -Technical Hub

- Completed an internship in Java focusing on core programming and OOP concepts. Gained practical experience with classes, inheritance, polymorphism, and exception handling. Built small Java applications and improved coding, debugging, and modular design skills.

Projects

Banking Application – Java Console Project | Tools Used: Java, OOP

- Built a Java-based console banking application with features like deposit, withdrawal, balance check, and transaction history. Implemented user interaction using menu-driven input with validation for incorrect or insufficient operations. Applied object-oriented principles such as encapsulation and method abstraction for clean code structure. Demonstrated strong grasp of core Java concepts, control flow, and user-focused logic handling.

Gym Website | Tools Used: HTML, CSS, JavaScript, React JS

Website link

- Developed a desktop website that provides users with various training programs, classes and diet plans.Applied modern React components for dynamic content rendering.

Certifications

Pega Certified Senior System Architect Infinity 23 [Link](#)
Python IT specialist certification and Java Certification through Pearson
CSS and JavaScript Certification from Hacker Rank. [JS Link](#) [CSS Link](#)
Red Hat Certified System Architect (RHCSA)
MySQL certification from Hacker Rank [Link](#)

Achievements

Won 1st Prize for Hospital Management Project in Project Space.

Solved 250+ programs in codechef [Link](#)
